33rd International Conference on Lightning Protection

25 · 30 September 2016 Estoril Portugal

Welcome

ICLP 2016, the 33rd ICLP conference, continues the tradition of the preceding ICLP conferences by offering a platform for the exchange of scientific and technical information related to lightning phenomena.

ICLP 2014, in Xangai, was attended by 562 delegates from 50 countries. As in all ICLP conferences, a challenging technical content was offered. An attractive program of the highest standard will also await you in Estoril, 2016.

About ICLP

ICLP is a scientific/technical organ aiming at promoting scientific research on lightning physics as well as methods for improving protection of people, animals and properties against the effects of lightning.

Since 1951, regular international meetings on lightning events and lightning protection of structures and services are organized, in order to provide an interdisciplinary forum for the exchange of scientific knowledge and information among scientists and engineers who are engaged in research and practical application on lightning protection and to ensure the effective transfer of new knowledge from lightning research into practice for the benefit of society. All the papers presented at ICLP meetings are reviewed by a panel of experts and are selected based on their scientific and technical merit.

Conference Venue - ESTORIL CONGRESS CENTER (ECC)

Opened in 2001 and winner of the "Excellency in innovation and Architecture Quality Prize" and "Best Tourism Development", the Estoril Congress Center is the ideal venue for all types of corporate, institutional, cultural and social events. It is the only venue in Portugal with Earth Check's Green Venue certification.

The Estoril Congress Center is suitable to host all types of event and several activities simultaneously. It has been designed to hold a great majority of events and its functionality and modern technological equipment allow it to adapt to specific requirements, as well as the simultaneous holding of different activities.

The Estoril Congress Center is the only space certified as a Green Venue in Portugal for its commitment to green practices and sustainable business.
