September 2016  
Estoril  
Portugal

## Welcome to the 2016 ICLP Poster Session!

### ABOUT THE POSTER SESSIONS

The ICLP Scientific Committee wishes that enough time is allocated to discussing each and every paper. In poster sessions, attendees can focus on specific papers, according to their technical interests, and devote enough time to them. Thus, combination of both oral and poster sessions has shown being the most adequate solution.

Please note that the ICLP Scientific Committee considers that all selected papers have equal merit. Accordingly, as per our acceptance notification letter, all papers presented at ICLP 2016, either at oral or poster sessions, are eligible to the associated events: the Young Scientist Award and the EPSR Special Issue on Lightning Protection.

Special attention is given to the organization of ICLP 2016 Poster Sessions.

We believe that you will have a positive experience by presenting your work in a poster session at ICLP 2016.

### POSTER ACCOMMODATION

Next to the Exhibition, a large area is devoted to the 2016 ICLP Poster Sessions.

Papers in poster sessions will be organized in clusters, so to provide authors a unique opportunity to having fruitful discussions. A Moderator is designated for each cluster.

Each author will have at his/her disposal **2 paper boards (AO format = 85 cm wide X 120 cm high)** for his/her presentation, which must be thus of AO format. **Authors must send their posters to [tpc@iclp2016.org](mailto:tpc@iclp2016.org) before September 5**, for a prior check.

**Authors must bring the posters printed.** Please note that no printing of posters will be available at the Estoril Congress Center, nor within walking distance.

No microphones, laptops or video projectors are made available in order to keep the informal aspect of the Poster Sessions. However, a table is set in front of the 2 paper boards for better comfort of authors and discussers.

## POSTER PREPARATION

Authors are strongly encouraged to prepare attractive presentations for a lively discussion (Figures more appropriate than text). Background colors should be also avoided.

The template to be used is available at [http://iclp2016.org/presentation\\_guidelines.asp](http://iclp2016.org/presentation_guidelines.asp) in PowerPoint format A0, ready to use.

The adopted layout is structured in six blocks, three in each column. Some suggestions of block contents are given in the template.

The size of the fonts could be:

- title: Calibri, 65 pt., fat, max. 2 lines
- name(s) of author(s) and institution(s): Calibri, 30 pt.; separate lines for author(s) and institution(s)
- headlines: Calibri, 60 pt., fat; it is recommended to use the given headlines
- text: Calibri, 40 pt., interspace: 30 pt. previous to each bullet point.

We wish to remind authors that it is a ICLP Paper and consequently should not be misused as advertisement for the companies or products. Company logos can be used, but should not be conspicuous, and should appear at the reserved area foreseen in the template.

The ICLP Scientific Committee is grateful for your contribution to highlighting the 2016 ICLP Poster Sessions.

The Cluster Moderators in Poster Sessions will report on outstanding papers that shall be considered for the ICLP associated events.

See you at Estoril!
